xxi Views on teachers' work to the Committee on Teachers' Work

The Asst Hon Sec EC, Ms Shirley Wong She-lai attended the preparation meeting of the Committee on 27 January 2006. The meeting was to decide on the term of service for the Committee, including the study of the nature, arrangement and amount of teachers' work and the suggestions of measures for more effective workflow for teachers and lowering of teachers' stress. All representatives present in the preparation meeting were asked to join an advisory group under the Committee and Ms Wong agreed to join

xxii Support for Band 3 Students

Mr. Stephen HUI Chin-Yim and Mr YUEN Tze-lam attended the meeting with EMB on Support Measures for these students. The support measures would not be additional resources on top of the existing ones, but there would be relocated provisions offsetting the existing ones. There might be slight decrease in the administration grant for Academically Low Achievers.

xxiii SCOLAR – Using PTH to teach Chinese Language

The Hon Secretary, Mrs. Gigi CHAN HSU Show-chee reported the meeting with SCOLAR with the following five suggestions.

- Long term target in Language Policy should be set up
- Pre-service teacher training for Chinese language should include PTH
- Government should have commitment in the policy of using PTH to teach Chinese
- Native PTH speaking teachers should be recruited to support schools
- In-service PTH training should be continued

xxiv A consultation session on Secondary Six Admission Procedure 2007 in relation to Standards – referenced reporting for Chinese & English languages under HKCEE. Further public consultation is required.

4.2 The Council as a supporting organization in the following:

i 「與內地學校締結計劃」 - EMB

ii “The 2nd Hong Kong School Principals’ Conference 2006” - HKIED

iii 「全港學界悅讀大行動 2006」 organized by HKEdcity.

iv International Conference of Inclusion Education 2006 organized by HKU

v Workshop on “Workable Measures for the Language Fund Application”

As a follow-up of the suggestions for the implementation of the Language Enhancement Scheme, the Council worked with other councils and associations to organize workshops for the teachers to reduce their workload in making application plans.

vi “Workshop on English Enhancement Scheme”

Co-organized with the Chinese Middle Schools Association, the English Secondary Schools Association and the Hong Kong Association of Heads of

Secondary Schools, held on 25 March 2006 at Pui Ching Middle School.

- vii The IT Seed Project and E-leader Training Programme 2006/07 for existing IT Seeds offered by Pui Ching Education Centre.

4.3 The Council sent written reply to the Government on the following:

- i “Review of Public Service Broadcasting in Hong Kong”
- ii Opinion Form on the Consultation on Recognition of COC Courses under S.6 Admission Procedure 2006
- iii Copyright (Amendment) Bill 2006
- iv Application for (MOI) Language funds: to simplify the application procedures; to avoid using external examination results as success criteria, and to avoid using the “train the trainer” mode because this would cause heavy work load on the teachers serving as trainers.
- v Class Structure for NSS (3+3+4) for 2006/07 & 2009/10

In order to enable early planning for the NSS curriculum, the class structure for SS1 in 2009/10 should be decided as early as possible and was recommended to be the same as that for S.1 in 2006/07. It was also suggested that for schools willing to reduce the school size to 24 classes, the grace period for surplus teachers should be extended.

Issues such as whether schools should remain asymmetrical or become symmetrical, how to handle surplus teachers if schools need to change from asymmetrical to symmetrical, whether mainstream schools should operate 24 classes, etc., needed to be addressed.

- vi TSA & its Implications (in terms of school effectiveness)
Students should not be judged only by the outcomes in the three major subjects and there should be focus on other aspects like physical fitness, behaviour, etc. Schools should have the TSA profile of the students so schools could help those students not meeting the standard. The TSA results should not be announced on individual school basis annually at the initial stage and should be accumulated for a few years to enable more meaningful analysis and evaluation to be conducted.

5 Meeting with Professor Arthur KC Li and the ‘Nine Measures’ Issue

Professor Arthur LI arranged a meeting with HKSSSC and five other councils / heads associations on 27 February 2006 to propose the release of some comprehensive support measures for teachers. The Chairman and 4 other E.C. members attended the meeting and agreed to support the measures together with the other parties by releasing a joint statement as the proposed measures would be withdrawn if there were any queries. The so-called ‘Nine Measures’ were accepted because EMB was using a ‘take-it or leave-it’ and ‘all or none’ tactics.

6 Teacher Salary Structure

Several meetings with MEB had been held and the Council’s proposals

- i. All graduates & all trained;

- ii. Two more promotion points between GM & SGM;
- iii. 'Grandfathering' of the existing teachers

were accepted in principle. However citing the reason of wishing a smooth transition in the 3+3+4 Reform, EMB decided to postpone the review of teacher salary structure in the aided schools to 2012.

7 Car Park Arrangement for Housing Estate Schools

NTW Area Representative, Dr LAM Chi-hung attended a meeting with the EMB, the LINK and the Housing Authority. It was agreed that the provision of free parking spaces to Estate Schools should remain similar to that in the previous years, that is, a maximum of 8 free parking spaces for each estate secondary school and 4 for each estate primary school. As the arrangements of using monthly tickets, passes or daily tickets vary with different car park contractors, the LINK promised to review the situation to see if further simplification could be made.

8 SBA Survey

Over half of the member schools agreed that the SBA should be continued but with simplification. The findings & recommendations were presented to EMB and HKEAA and posted in the website for members' reference.

9 COC Survey

The findings from the return show that EC's proposals receive the support of the majority. The results have been put on the website.

10 Position in the pack class situation

EMB should help schools to survive and let schools with less student intake to fade out on their own accord.

We would accept the present skewed provision of resources as a short term measure and would continue to fight for:

- provision of a better learning environment for all students;
- more resources for schools of all bandings;
- a class size of 35 students for all schools as set out in the Education Commission Report No. 5;
- fixed class structure after the packing of classes in S.2.

11 Liaison Meeting on 3+3+4

There are regular meetings between EMB & representatives of various Councils to discuss issues related to 3+3+4 reform. The Chairman and Mr. Stephen HUI Chin-Yim have been attending these meeting and put forward Council's views.

12 Vote of Thanks

I sincerely thank all members, the E.C. and members of all the Task Groups. My heartfelt thanks should also go to the staff of the E.C. members and member schools who have been helping us a lot behind the scene.

Discussion on HKSSSC

EC

1. Strengthen the role of area representatives to enhance communication between member schools & area representatives.
2. Enlarge the network of member schools, discuss on the strategy we may employ, share good practices.
3. Disclose more on what the committee members have done to member schools, let the member schools know what is being discussed between committee members & EMB.
4. Push EMB to release information to HKSSS concerning same educational issues.
5. 津中應該多一點團結，互相支持。
6. 津中可否和津小溝通，讓小學家長了解情況，教統局會較易接受。

School Administration

1. 中文科老師等最近因 syllabus 改變，要考 oral，extra workload 可否計入監考時間？

Education Future / Education Issue

- 1.1 Can HKSSS push EMB to give us a more concrete picture about the future, including students' population, curriculum, teachers' redundancy?
2. 中學被大學牽著鼻子走，高分低能可惜忽略個人發展，德育群育及責任，而不是只著重成績。

Curriculum

1. Quality of teachers.
2. 新高中課程
3. 同區學校可否調配分科開科？
4. 融合教育。
5. 考慮單純紙筆考試不能評估的科目才引入校本評核。
6. Science KLA SBA 如果 40 人一班，極難處理。

Morale

1. Morale of teachers is very low.
2. 最近報章報導老師每週工作量為 18 小時，對同工士氣有影響。
3. EMB inspector 之 report 可否多些鼓勵有關老師之士氣，有些言論，好像在 office 也可定稿，這樣，又何需親臨學校視察呢？
4. 自強不息也是重要。

Finance / Funding & Student Activity

1. 老師出差的問題。
2. IMC 容許一些薪金上的彈性。
3. 境外活動。

Class Structure

1. 未來班級結構，學校管理工作外判。
2. 大埔區曾討論可否一級造 4 班，大埔區中學校長同意方向，但由 30 改 24 班要考慮。
3. 肥雞餐是否只給老師，校長無份嗎？ EMB 可否澄清？
4. 通識用 Cash Grant，可否變做 permanent establishment？
5. 津中可爭取將現金津貼轉回常額編制？
6. 有超額教師不能請代課如何解決？
7. 專科專教，每級只能有一組，@5x3=15 節，最終只能開辦熱門科目，專科專教不一定能實現。
8. 超額教師一定有，問題是出現在哪一所學校？如果讓學校 24 班，可以有更多空間，名校教可否讓他們自然流失？讓不適合教書的老師離開。
9. 有些 PGM 轉了第二間學校做校長，由於班數等原因做了 P2，如此，薪水反而減了，比兩個副校長還低，這是不公平的。
10. GM 之比例應該調高，現在不少 Degree holders 拿 CM pay，期望師資全面學位化。
11. Non-teaching staff 之 salary 現在與 MPS 脫鉤，有些人工低至 5000 元，雖然這會增加行政之靈活性，但仍希望 EMB 考慮增加 resources，以免同工之人工過低，同工不同酬影响士氣。

Repairs/Maintenance

1. 請 EMB 監察顧問公司之質素。
